No. 816 Broadway, NEAR LITH ST., NEW-YORK A Word to Clergymen.

The high character, scholastic attainments, erudition and octal qualifications of American Clergymen are in strong contrast with the narrow prejudices and limited resources which have marked the history of other nations, and of earlier period of the world. Coming directly in contact with the theories of the most enlightened minds, as well as the customs of cou the most calightened minds, as well as the customs of com-mon life, they are better calculated to judge of popular opinion, and current ideas than any other class of over. Their influence is unbounded. Their opportunities for directing practical re-forms and progressive developments impose many obligations.
